Ms. Maureen Marché  
Administrative Assistant to  
State Water Resources Control Board  
Paul R. Bonderson Building  
901 P Street  
P.O. Box 100  
Sacramento, CA 95812-0100

Dear Ms. Marché:

RE: Water Quality Control Plan for San Francisco  
Bay/Sacramento-San Joaquin Delta Estuary -  
December 19, 1994

The Suisun Resource Conservation District (SRCD) is submitting the following comment for consideration by the SWRCB Board prior to your acceptance of the draft plan:

This is only in regard to the joint recommendations (Item No. 4) - Suisun Marsh objectives presented in the SWRCB Water Quality Control Plan dated March 7, 1995 by USBR, DWR, DF&G and SRCD.

The SRCD Board of Directors has some great concern about the modification to the effective dates for compliance of S-35 and S-97. These stations effective dates for compliance have been changed many times. There should be a precise time frame to come into compliance this year and any extensions of this time should have a provision for mitigation for not meeting the water quality standards at these two stations.

The SRCD Board requests that mitigation be made to the landowners in the area that have to manage their property with the poorer water quality as is stated in D-1485.

Thank you for your consideration in this matter.

Sincerely,

  
Leland C. Lehman  
SRCD Manager

LCL/td
